VISVESVARAYA TECHNOLOGICAL UNIVERSITY

"JNANA SANGAMA" Belagavi – 590018, Karnataka

A

MAJOR PROJECT REPORT

ON

"VEERDRISHTI: COMBAT VISION SYSTEM"

Submitted in partial fulfillment for the award of the degree in

BACHELOR OF ENGINEERING

IN

COMPUTER SCIENCE AND ENGINEERING

Submitted by

GAURAV CHAUHAN	1BH23CS024
GAURAV SINGH	1BH23CS025

Under the Guidance of

Ms. Sapna N

Asst. Prof., Dept. of CSE

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

CERTIFICATE

This is to certify that the Major Project report entitled **"VEERDRISHTI: COMBAT VISION SYSTEM"** has been carried out by **GAURAV CHAUHAN [1BH23CS024]** and **GAURAV SINGH [1BH23CS025]**, bonafide students of **BANGALORE TECHNOLOGICAL INSTITUTE**, Bengaluru, in partial fulfilment of the requirements for the award of **BACHELOR OF ENGINEERING** in **COMPUTER SCIENCE AND ENGINEERING** of **VISVESVARAYA TECHNOLOGICAL UNIVERSITY**, Belagavi, during the academic year **2026–2027**. It is certified that all corrections and suggestions indicated for Internal Assessment have been incorporated in the report. The Major Project report has been approved as satisfying the academic requirements prescribed for the said degree.

Ms. Sapna N	**Mrs. Swaroopa K**
Asst. Prof., Project Guide	Asst. Prof., Project Coordinator
Dept. of CSE	Dept. of CSE
Dr. D. Jerline Sheebha Anni	**Dr. H. S. Nanda**
HoD, Dept. of CSE	Principal

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

DECLARATION

We, the students of final year Computer Science and Engineering, Bangalore Technological Institute, Bengaluru, declare that the Major Project entitled **"VEERDRISHTI: COMBAT VISION SYSTEM"** is original work independently carried out by us under the guidance of **Ms. Sapna N**, Assistant Professor, **DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING, BANGALORE TECHNOLOGICAL INSTITUTE**, Bengaluru. This report is submitted in partial fulfilment of the requirements for the award of **BACHELOR OF ENGINEERING** in **COMPUTER SCIENCE AND ENGINEERING** of **VISVESVARAYA TECHNOLOGICAL UNIVERSITY**, Belagavi, during the academic year **2026–2027**.

We declare that this work has not formed the basis for the award of any other degree in this or any other institution or university. In keeping with ethical practice in reporting scientific information, due acknowledgements have been made wherever the findings of others have been cited.

Date: _____

Place: Bengaluru

Student Name	USN	Signature
GAURAV CHAUHAN	**1BH23CS024**	. . . . .
GAURAV SINGH	**1BH23CS025**	. . . . .

ACKNOWLEDGEMENT

Any achievement, be it scholastic or otherwise does not depend solely on the individual efforts but on the guidance, encouragement and cooperation of intellectuals and elders. We would like to take this opportunity to thank them all.

We heartily extend my words of gratitude to the Assistant Professor **Ms. Sapna N**, Major Project Guide for his valuable advice, encouragement and suggestion given us during our Major project work.

We heartily extend my words of gratitude to Assistant Professor **Mrs. Swaroopa K**, Department Major Project coordinator for her valuable advice, encouragement and suggestion given us during our Major Project work.

We heartily extend my words of gratitude to Sr. Professor **Dr. M.A. Dorairangaswamy**, Institute Major Project coordinator for his valuable advice, encouragement and suggestion given us during our Major Project work.

We would like to express our immense gratitude to Professor **Dr. D Jerline Sheebha Anni**, Head of the Department, CSE for her unfailing encouragement and suggestion given to us in course of Major Project work.

We would like to take opportunity to express our gratitude to Professor **Dr. H S Nanda**, Principal for giving us this opportunity to enrich our knowledge.

We are grateful to the President **Dr. Prabhakara Reddy A** for having provided us with a great infrastructure and well- furnished labs.

Finally, a note of thanks to all the teaching and non – teaching staff of Department of Computer Science and Engineering, for their co-operation extended to us.

Last but not the least, we acknowledge the support and feedback of our parents, guardians and friends, for their indispensable help always.

GAURAV CHAUHAN **1BH23CS024**

GAURAV SINGH **1BH23CS025**

ABSTRACT

VeerDrishti is an Android-based computer-vision prototype for real-time visual situational awareness. It captures camera frames and applies on-device YOLO26 Nano task variants through Flutter YOLOView, with CameraX handling capture and rotation. The prototype displays detection boxes, segmentation masks, pose keypoints, configurable confidence and IoU thresholds, and runtime indicators in portrait and landscape views. The available demonstrations verify the capture-to-display pipeline and task-specific visual outputs. Displayed readings range from 11.9 to 21.3 FPS across the supplied screenshots; these observations are not a sustained accuracy or latency benchmark. Controlled evaluation on annotated, combat-relevant data remains future work.

VISION AND MISSION OF THE INSTITUTE

BANGALORE TECHNOLOGICAL INSTITUTE

VISION

To evolve as a Centre of Excellence in Academics, Research and Development to impart Technological advancement to the Society.

MISSION

M1 - To provide young prospective engineers with an environment for higher education and research

M2 - To mold students as responsible citizens with an attitude of using their knowledge for technological advancements

M3 - To uplift the downtrodden and improve the quality of life of fellow human beings.

VISION AND MISSION OF THE PROGRAM

COMPUTER SCIENCE AND ENGINEERING

VISION

To impart the best in academia & research, empowering the students of Computer Science and Engineering by contributing their best for the society.

MISSION

M1 - To impart updated theoretical and practical knowledge in computer science and engineering by creating an outstanding learning environment.

M2 - To equip the students with wisdom in the discipline of computing and to apply their knowledge for benefiting the society.

M3 - To enhance research collaborations for upliftment of computing professionals.

PROGRAM EDUCATIONAL OBJECTIVES

PEO1 - To showcase strong technical proficiency in computer science fundamentals, empowering the design, development and implementation of innovative solutions that address real world challenges.

PEO2 - To establish a solid foundation in the core concepts of computer science and engineering, while fostering a proactive attitude towards pursuing higher education and fulfilling industry demands.

PEO3 - To embody professional ethics, strong communication skills, and leadership qualities that faster multidisciplinary excellence and career growth.

PEO4 - To cultivate technical knowledge and research ability that inspire innovation, enabling the establishment of startups and fostering entrepreneurial success.

PEO5 - To tackle societal, environmental and global challenges through the design of sustainable and efficient computer science and engineering-based systems that improve overall quality of life

PROGRAM OUTCOMES

1 **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

2 **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

3 **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

4 **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

5 **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.

6 **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

7 **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

8 **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

9 **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

10 **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11 **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in environments.

12 **Life-long learning:** Recognize the need for and have the preparation and ability to engage in independent and life-long learning in the context of technological change.

PROGRAM SPECIFIC OUTCOMES

PSO1 - Demonstrate proficiency in computer education by applying principles of mathematics, science & engineering along with technical expertise.

PSO2 - Equip proficiency in computer science and engineering employing the principles of communication networks, database management systems, computing systems & standard software development practices to cater technical growth.

PSO3 - Develop proficiency in analytical skills, research & innovation contributing effectively as per the industry requirements by delivering effective socio - economic skills for the advancement in technology.
